

Cercis - Modular Fixed Fiber Patch Panel

Cercis - High Density Fiber Patch Panel 1U, fixed

CERCIS Modular Fixed Panel is designed for holding CURRANT Cassettes - Preterminated, Adapter and Splicing.

- Supports 8F, 12F and 24F applications while maintaining full frontal panel port density
- Same size Cassettes are installed in 2-level slots
- Combining different format cassettes in one panel
- Cassettes can be installed and removed from front or rear of panel
- Ability to install modules for RJ-45 sockets in the panel instead of the cassettes
